Aluminium

Technik

Maximum reliability for our equipment combined with efficient operating costs make Claudius Peters the ideal partner for your next project.

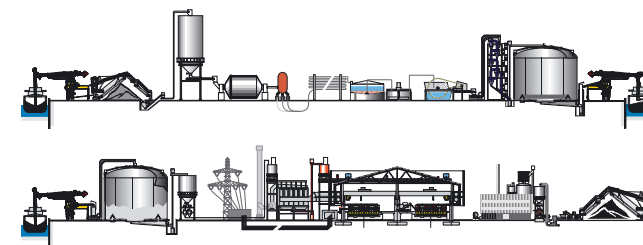

From stockyards for bauxite to grinding plants for anode coke, from alumina handling systems like pneumatic conveying with our unique FLUIDCON System to large storage silos with Anti-Segregation-System (ASS) to potroom feeding with Aerated Distribution System (ADS), Aluminium Smelters & Alumina Refineries can rely on Claudius Peters.

Claudius Peters would like to invite you to the first Aluminium Open Day at our headquarter in Buxtehude. We would like to present our latest developments in alumina handling & anode coke grinding technologies and innovative new solutions to you combined with a visit to our Technical Centre with material laboratory and workshop.

We are confident you will enjoy the programme and look forward to seeing you.

**Aluminium Open Day
1st and 2nd October 2014
