Storage & Reclaiming

Claudius Peters group headquarters, Buxtehude, Germany.

Claudius Peters Technologies SAS, Illzach, France, technology centre, Stockyards.

Since its founding in 1906, Claudius Peters has become one of the world's most respected engineering houses and an innovative world leader. Its German engineering excellence continues to set benchmarks for the design, manufacture and commissioning of materials handling and processing systems for the gypsum, cement, coal, alumina and bulk-handling industries.

From conception and installation through to commissioning and after-sales support, Claudius Peters provides world-class service to the world's biggest material processing organisations.

The Claudius Peters Group GmbH is headquartered in Buxtehude near Hamburg, Germany, with regional offices in the Americas, Asia and Europe.

Claudius Peters Technologies SAS

In addition to its role as Claudius Peters' product representative in french speaking territories, Claudius Peters Technologies SAS leads the global material handling activities of the group with its own PHB Someral product range.

Bringing over 40 years experience in designing material handling equipment, PHB Someral became part of Claudius Peters Group in 1993.

Providing tailor-made solutions:

- State-of-the-art PHB Someral bulk handling systems provide reliable, cost effective solutions for the storage of most dry bulk materials
- PHB Someral design the best equipment configurations to maximize storage capacity within available space
- Claudius Peters Technologies offers the optimum combination of French engineering and German expertise

Circular storage, gypsum.

Bucket excavator, clay.

Portal reclaimer, fertilizer.

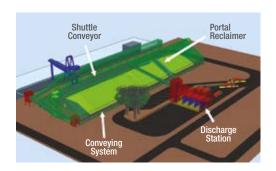

stockyard & materials handling

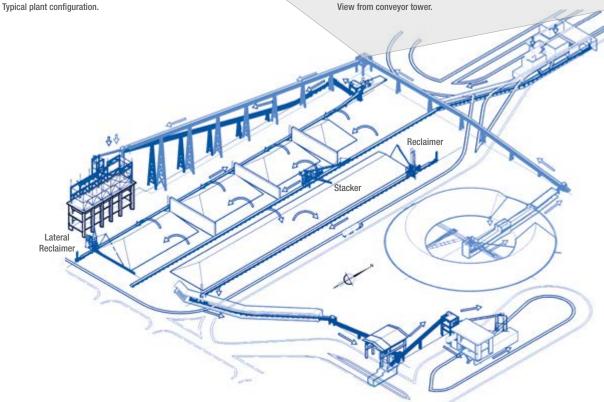

Integrated systems

From single stackers to complete system solutions, including design and installation, PHB SOMERAL storage systems can form an integral part of a larger material handling installation comprising conveying networks, bagging and palletising stations, wagon and truck loading points and shiploaders.

As a result the PHB SOMERAL system becomes the key element in a completely automated material-handling package, operating through a local network, with a central, ergonomic design.

stockyard solutions

Bridge reclaimer for limestone.

Portal reclaimer for fertilizer.

Stacker for limestone.

Circular blending bed for cement raw mix

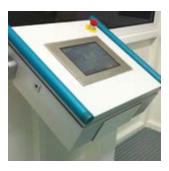

Claudius Peters always proposes the most economic and optimized solutions for clients' projects, balancing product characteristics (grain size, moisture content, blending or homogenization) with the best combination of machinery, civil works (w/o discharge wall, pit, building, etc) and available plant space.

Typical Capabilities:

- Piles: up to 50m width & 500m length
- Belt conveyors: 150 tph to 3500 tph up to 10km long
- Stackers: 50 tph to 3500 tph (boom up to 40m)
- Reclaimers: 50 tph to 2500 tph (rail distances up to 55m), depending on machine type

Drivers' cabins

All Claudius Peters machines are supplied with fully equiped drivers' cabins including PLC, HMI, air conditionning, cables, cable reels, junction boxes, and lighting. Fiber optics, ATEX and pressurized cabins are available on demand.

HMI desk in drivers' cabin.

Pile types

Stacking modes

Stacking types

Reclaiming modes

Lateral

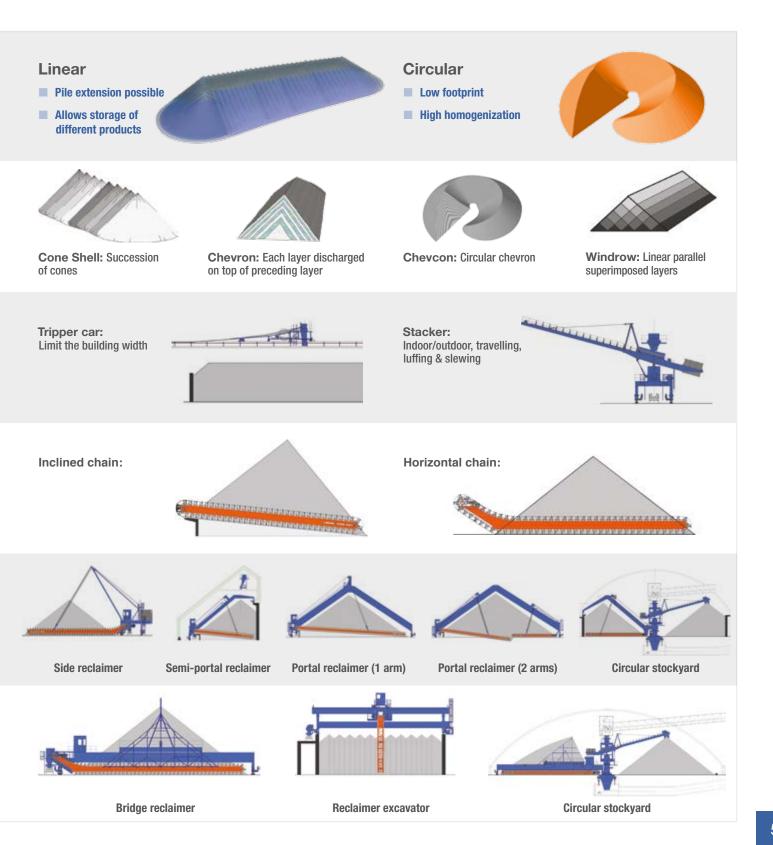

- Travel above the piles
- Also suitable for sticky products

Frontal

Suitable for product blending

storage & reclaiming

Leading edge technology for optimum efficiency

PHB SOMERAL product range:

- Portal, semi-portal and side reclaimers
- Bridge reclaimers
- Travelling and slewing stackers
- Circular and longitudinal stockyards
- Belt conveyors
- Design, engineering, manufacturing, installation and start-up
- Spare parts and after sales service

Application sectors:

- Cement plants
- Power plants (coal-biomass)
- Fertilizer industry
- Petrochemicals
- Paper industry
- Port terminals
- Train or truck loading and unloading
- Mines

Portal reclaimer, fertilizer, 2200 tph, Morocco.

Conveyors, phosphates, 1200 tph, Morocco.

Longitudinal blending bed bridge reclaimer, limestone, 300 tph, Qatar.

Materials handled:

- Limestone, shale, iron ore, clay, alumina, bauxite, marl, sand, bentonite
- **■** Coal, petcoke, lignite, FGD gypsum
- Phosphates, urea, TSP, DSP, MOP, phosphogypsum, sulphur
- Wood pellets, bagasse, wood chips, bio solid fuel
- And many others

Services:

- Supply of single stackers / reclaimers to turnkey projects
- Plant revamping
- Provision of complete handling plant solutions
- Supply of indoor and outdoor products
- Supply of steel structures or detailed drawings only

Stockyard solutions for every conceivable need

Portal reclaimer, coal, 1200 tph, Vietnam.

Stacker, mix of clay and limestone, 1200 tph, Algeria.

Bucket reclaimer, shale, 120 tph, USA.

Circular stockyard for woodchips, 800 tph and 350 tph, Finland.

Reclaimer, coal, 150 tph, Croatia.
